Use the following guide to determine the total amount of impervious area related to new construction.

Per Clarion County's Act 167 Stormwater Management Ordinance, a stormwater management plan is required for new impervious surfaces that prevent the infiltration of water into the ground and shall include, but not be limited to, roofs, patios, garages, storage sheds and similar structures, and any new driveways, streets or sidewalks.

<i>To Calculate Impervious Surfaces Please Complete This Table</i>					
Surface Type	Length	X	Width	=	Proposed Impervious Area
Building		X		=	
		X		=	
		X		=	
		X		=	
Driveway		X		=	
		X		=	
		X		=	
Parking Areas		X		=	
		X		=	
		X		=	
Patios/Walks		X		=	
		X		=	
		X		=	
		X		=	
Other		X		=	
		X		=	
		X		=	
Total Impervious Surface Area to be managed (sum of all areas)					

No action needed for construction of new impervious <1000 ft². Please refer to Storm Water Ordinance on Clarion County's website.

Submit fee, application and plan to:

Clarion Conservation District
214 S 7th Ave, Room 106A

Clarion, PA 16214

For questions or additional information contact:

Alicia Ramsey, E&S Technician – ramseyccd@gmail.com 814-297-7812

Trudy Alexander, District Manager – talexanderccd@gmail.com 814-297-7811

*The Clarion Conservation District will provide an approval letter to applicant upon satisfactory review of the Act 167 Stormwater Management Plan within 30 days of receipt.
Applicant will be notified of deficiencies within 30 days of initial review.*

Project Location Map

Include on Google Map: new impervious structure location, property boundary, nearby roads, ground slope (arrows), drains and planned direction of storm water runoff.
